

Organization chart of Harrer Ingenieure

**Harrer
Ingenieure**

Gesellschaft Beratender
Ingenieure VBI mbH

Structural and civil engineering
Bridge and tunnel construction and
foundation engineering
Industrial and commercial construction
General planning and
project management
Special constructions and
risk management

**Consultation
Planning
Management**

Executive board

Dipl.-Ing. Matthias Gerold
(Checking Engineer for Construction)
Dipl.-Ing. Rudl Lehner
Dipl.-Ing. Harald Augenstein
Dr.-Ing. Slobodan Kasic
Dipl.-Ing. (FH) Hermann Sommer

Reinhold-Frank-Straße 48 b
D-76133 Karlsruhe
District Court Mannheim HRB 106227
Telephone +49 721 1819-0

**Structural and
Civil Engineering**

Client consultation
Support structure planning
Construction supervision
Structural tests
Judicial and private expert reports
Preservation of evidence

**Bridge & Tunnel Construction,
Foundation Engineering**

In road, rail, and waterway sector:
Building and support structure
planning
Construction management
in civil engineering
Structural tests
Rail construction supervisor,
authorised technical
representative, construction
assessment,
structural repair, reinforcement

**Industrial and
Commercial Construction**

Building and support structure
planning
Consulting and support of
clients in the areas of industrial,
commercial, plant, and
power plant construction
and in the energy supply industry
Health and safety coordination

**General Planning and
Project Management**

General planning
Project management
Object monitoring
Project tendering and awarding
Supervision of planning
competitions and awarding
of public contracts
Project development
Fire protection

**Special Constructions and
Risk Management**

Building dynamics,
non-linear calculations
Life Cycle Assessment,
monitoring
Destructive engineering
(dismantling, destruction)
Assessment of natural disasters
(earthquakes, floods)
Risk analyses,
research and development
